

GREEN WORKFORCE CONNECT

Elevate Your Workforce With Clean Energy Apprenticeships

How We Help Your Workforce Grow Using the Registered Apprenticeship Model

1 Technical Assistance (Group and 1:1 Sessions Available)

Understand the Model

Get guidance on how Registered Apprenticeship and Pre-Apprenticeship frameworks fit your business needs.

Tailored Standards

If you decide creating a Registered Apprenticeship Program makes sense, we'll help you design standards aligned with your state's specific registration requirements.

Agency Alignment

We work directly alongside you and your State Apprenticeship Agency (SAA) or federal Office of Apprenticeship (OA) to finalize and register your standards.

IREC

The Interstate Renewable Energy Council (IREC) supports employers in building, registering, and scaling Registered Apprenticeship (RAP) and Pre-Apprenticeship programs in clean energy and energy efficiency.

2 Outreach and Recruitment

Apprenticeship-Ready Talent

Connect with job seekers who understand the value of an apprenticeship—recognizing it as a paid, degree-equivalent career pathway.

Verified Readiness

Candidates complete our foundational free self-paced Apprenticeship Ready online course and earn a digital badge proving their readiness and commitment.

Profile on Green Workforce Connect

Green Workforce Connect is a web platform that connects job seekers, employers, and training providers. Get a free listing in our "Connect Now" database to connect your organization with job seekers interested in apprenticeship pathways.

3 Financial Support

Direct Financial Support

When you hire an Apprenticeship Ready candidate, you'll be eligible for $1,000 incentive funding per apprentice (up to 5 apprentices).

Join the ACE Network & Green Workforce Connect

Become part of the **Apprenticeship in Clean Energy (ACE) Network**—a community of clean energy employers leveraging **Green Workforce Connect** as a central hub to access technical assistance, recruit top talent, and utilize industry-vetted workforce resources.

Ready to build your pipeline? **Fill out this form or scan the QR code to get started!**

If your organization is a clean energy or energy efficiency Registered Apprenticeship sponsor or employer and is interested in becoming a member in the ACE Network: Please fill out this short form, select "New Listing - Apprenticeships in Clean Energy Network," and indicate if you're interested in learning more about the stipend in the comments section. You can also email us at apprenticeships@irecusa.org.

We look forward to connecting with you and supporting your apprenticeship efforts!
